Gel-Away FO Specialty Solvent

Removes Cable Gels, Water Blocks, and Filling Compounds Found in Fiber Optic Cable

Gel-Away FO: engineered to remove the specialty water blocking compounds from cladding, tubing, and glass fibers in optical cable. It evaporates in less than 2 minutes when wiped and leaves no residue (less than 100 ppm per modified ASTM D1353).

- **Gel-Away FO** is environmentally responsible and pleasant to use. It contains no CFC's or HCFC's and has no ozone depleting potential. It is classified as a class III combustible liquid by OSHA with a Tag Closed Cup flash point of 112°F (per ASTM D56) and contains no hazardous chemical components.

- The **Gel-Away FO** formula has been used extensively in the fiber optic cable industry since 1990 by cable manufacturers, telephone companies, and contractors. The product has been thoroughly tested for compatibility with the components of fiber optic cable (per ASTM D1693) and found completely acceptable. **Gel-Away FO** will do the entire cleaning job from the out side of the cable sheath to the glass fiber itself.

- **Gel-Away FO** is most often packaged in sealed foil pouches containing 9" x 10" saturated, non-linting towelettes. It is also available in cases of 12 one pint plastic squirt bottles, and 55 gallon plastic drums.
